H2O Premium & Solvent Based Wood Floor Finishes

Schwartz H2O and Solvent Based Premium Wood Floor Finishes offer a long-lasting and durable topcoat designed for high traffic areas. They are the ideal choice for gymnasiums and any other commercial hardwood floors.

FEATURES

- Low VOC (<45g/L), to meet regulations
- Excellent durability and abrasion resistance
- Excellent flow and leveling
- Excellent resistance to common household cleaners
- Applies like a traditional oil-base finish
- No foaming H2O formula
- Short recoat time

SUMMARY OF HOW TO USE THIS PRODUCT*

Follow the manufacturer's recommended surface preparation guidelines, using a synthetic water-based finish applicator.

Apply one coat for most wood but two coats for wood high in tannin. Let the Wood Flooring Sealer Water-Based cure for 2 - 4 hours before recoating. Do not abrade. Apply two coats of Schwartz Chemical Premium Polyurethane Water-Based, as directed.

* For detailed instructions, please see the product data sheet.
